1.  LIAISON In the absence of   took a call from Jim Davidson, on the staff of the Senate Subcommittee on Intergovernmental Relations, Government Operations Committee. He asked for the status on Senator Edmund S. Muskie's (D., Maine) letter on CIA's experience with Executive Order 11652 on classification and declassification of information. He indicated that we had informed him in mid-September that another week would be needed. After checking, I told him that our response was completed and was waiting for the Director's signature and that I would get it over to him as soon as it was signed.

2.  BRIEFING Called Howard Feldman, Senate Permanent Investigations Subcommittee staff, and advised him that CIA had a revised estimate of the Soviet grain production. As of last week, Soviet grain production is estimated to be between 155 and 165 million tons. They have purchased 20 million tons which means there is a 32 million ton shortfall. The reasons and implications are essentially the same as they were when we last briefed them. Nonetheless, we thought this new estimate should be brought to his attention.

I also called Stuart Statler, Minority Counsel, of the same Subcommittee, and told him the foregoing. They were both very grateful. 25X1

I told Ralston that we had received his letter and were pulling together the Journal items and would try to get together with him early next week. Ralston said he was interested in looking at these items to see how they fit into a paper he is doing on Agency contacts with the Congress with respect to our budget. He says he hopes to have his material on this subject pulled together by next week.

15. [] LIAISON Following up on a call from his staff, I talked to Representative Stephen Solarz (R., N. Y.) late this evening concerning their request for our publication entitled "The 1973 Arab-Israeli War: Overview and Analysis of the Conflict." Representative Solarz is leaving tomorrow morning for the Middle East and is most anxious to look into this document which he said was brought to his attention by representatives of the Army who had briefed him late this afternoon. I made arrangements to meet with Congressman Solarz at his home late in the evening so that he could read the document and return it to me since it was classified Secret. The Congressman was most appreciative of my making these arrangements for him and in response to my expression of interest, said he would be glad to talk to us about his trip when he returns in three weeks.

16. [] ADMINISTRATIVE - DELIVERIES Took the [] material up to Representative Jack Brooks (D., Texas). Brooks would not sign the statement of receipt as presented to him because he said that it was technically in conflict with the House Rules and that he could not put his name to something that was against the House Rules. He said to Bill Jones, General Counsel to the House Government Operations Committee who was present at his office, and to [] with whom he discussed this over [] telephone in my presence, that it was his understanding that only the Subcommittee on Government Information and Individual Rights would review the material and that if other Representatives began reviewing it, he would let us know so we could withdraw the material. But he would not sign something which on its face did not provide the material to the Committee as a whole. As I was leaving, he said to Jones, "If miscellaneous Members start coming to look at this material, they can come up and get it. They can do that."

Attached for your signature is a letter to Senator Kennedy for-warding papers. David Rudovsky, the family's attorney, called OGC, yesterday and said that he had cleared this with the family.

As you know, Senator Kennedy sent you a telegram advising you of postponement of their scheduled hearings on the until November. The submission of the other material requested by Senator Kennedy was deferred. We have not yet heard from Senators Kennedy and Church in response to your letters seeking an understanding as to how they want the inquiry handled.
